SUMMARY

Dedicated and innovative software developer with a passion for designing and developing custom software applications. Proficient in frontend technologies such as React JS, JavaScript, HTML and CSS. Experienced in collaborating with cross-functional teams to deliver user-friendly interfaces and integrate third-party platforms. Excited to contribute to a dynamic team environment, continuously learn and apply new technologies and best practices to drive innovation in the legal tech industry.

SKILLS

Front End Technologies: React JS, Redux, JavaScript, HTML, CSS, Tailwind, Bootstrap

Back End Technologies: Node.js, Express

WORK EXPERIENCE

Associate Software Engineer, Signdesk

July 2022- July 2023

Kotak Mahindra Bank Onboarding Site

- Developed and maintained configurations for Kotak Mahindra Bank's onboarding website utilizing a lowcode platform.
- Led the development of a report module that provides detailed insights into the onboarding process using React JS and Koa.
- Collaborated seamlessly with the team to achieve on-time delivery and exceeded client expectations.

Implemented dynamic platform, reducing time-to-market by 7%, with report module boosting user engagement by 5%.

JSON Validator Tool

- Spearheaded the development of a JSON validator tool to streamline the configuration validation process.
- Amplified the usability and precision of configuration data within the low-code platform environment.
- Employed React JS, Redux and Koa to construct a resilient and streamlined tool.

Revolutionized validation, cutting time by 3% and improving data accuracy, leading to 5% efficiency boost in low-code environment.

EDUCATION

Bachelor of Engineering in Electronics & Communication

August 2018-July 2022

VIVEKANDA COLLEGE OF ENGINEERING AND TECHNOLOGY, PUTTUR

CGPA: 8.65

PUC-PCMB June 2016 - March 2018

AMBIKA PU COLLEGE NELLIKATTE, PUTTUR

Percentage: 77.16%

SSLC 2016

VIDYARASHMI ENGLISH MEDIUM SCHOOL, SAVANOOR

Percentage: 94.08%

PROJECT

E-commerce Project: Trendy Treasure showcases an innovative tech stack, employing React JS, Tailwind CSS, Redux, and Context API to deliver a dynamic and intuitive frontend. Backend operations leverage Node.js, Express, JWT for secure authentication, and MongoDB for efficient storage, ensuring a seamless shopping experience for valued customers.
